

Smiles by Garlynn Photography

I am a Midland photographer who has a passion for capturing pure and natural beauty in the ordinary, everyday moments that might otherwise be overlooked. Whether shooting nature photographs or custom portraits, I believe the most beautiful pictures are created when the subjects are not posed. My past experiences as a freelance artist, illustrator and art teacher allow me to create a fun environment filled with positive energy, to capture the most artistic and natural images. These vibrant photographs are created to make the viewer smile!
