

Artist Statement

Jasminka Belamaric-Blazina

Midland, MI

I was born and raised in Croatia, but consider myself a citizen of the world. I lived in Tuscany, Milan, and Hong Kong, among other places. In 1998 I moved to Midland, Michigan. I hold a Masters degree in Biology and Chemistry.

My art is inspired by my world travels and my personal experiences. I explored stained glass, drawing, pastels, watercolor painting, acrylic painting, oil painting, and mixed media; but, my most expressive medium is Terracotta, and glazed Terracotta, which reminds me of my Mediterranean roots. Lately, all my pieces are made of Stoneware.

My work is made entirely by hand, one piece at the time, and the shape and glaze are selected as the piece is created. For this reason every piece is unique.
