

## Artist Statement

### **Barbara Plummer**

Midland, MI

During my lifetime I have always enjoyed viewing other artist's paintings whether in museums or that of personal friends. Upon retirement I had more time to pursue my interests and painting was at the top of the list.

I paint in acrylics using thin layers of paint and a lot of glaze. Painting is the tool I use to express myself and recreate fond memories. Most of the subjects are either landscapes or florals. The subjects come from true experience, traveling or gardening.
