

Denise Laudeman – Photographer Midland, MI

I have always been drawn to taking photos of Michigan's landscapes and skies. I love to capture the scenes so that the viewer feels they are right there in the photo, and it stirs a memory for them. I have been working on expanding my photography skills by looking for different lighting, shades, and angles to find that perfect capture. Along with my photography, I am a weather spotter, nature enthusiast, hiker and hunter. I am always on the look out for that unusual photo.

My favorite places to take photos are; Lake Superior, always trying to get the best waves shots, garden photos from my own garden, and any road trips.

My next photography goals include night photography and focusing on the northern lights.

I am a current member of the Midland Artist Guild, Midland Camera Club, and West Branch Creative Arts Association. My photos are on display at the 4th Street Gallery and Gift Shop in West Branch, MI.
